

Felt Wall Blade

Mode Felt Wall Blade allows for dynamic three dimensional shapes and interconnections never before possible, is one third the weight of traditional acoustic panels — great for installation and shipping, made with recycled plastic bottles & is 100% recyclable, and naturally Red List compliant.

Specifications

Product Name	Felt Wall Blade
Designs	—Blade A-H
Content	—100% Polyester (PET) with a minimum of 60% recycled content
Thickness	—12mm
Width	—Approximately 52.5” but can vary based on blade spacing
Height	—102”
Depth	—Approximately 7.5” but varies by design
Tolerance	—1/32”
Weight	—1lb 10oz per blade
Edge	—Exposed Felt
Sound Performance	—NRC = 0.45–.95 depending on density*
Fire Performance	—Product made from Class A PET felt material tested under ASTM-84
Variations	—Mode Felt uses an industry standard felting process. Slight and consistent variations in color and “heathering” should be expected when using this sustainable material. Slight imperfections are within normal manufacturing tolerance and not visible in standard installations.
Environmental	Low VOC emissions, formaldehyde and phenol-free. Naturally Red List compliant.
Maintenance	Vacuum to remove any loose dirt or dust. You may use a soft or plastic bristle brush to loosen it. Avoid excess pressure. Compressed air can also be used to dust the material in difficult or large installations. If stains are present, you may saturate a lint-free cloth with a mild detergent or soap and water solution.
Warranty	10 years
Unit of Sale	Per unit
